EXPERIENCE

Xanavi, Tashkent - Aug 2025 - Present (8 months)

Ai Software Engineer - Full-time

- Built a system plugin for amoCRM that automates call analysis, applies necessary tags, and generates summaries
- Built a system based on Dijkstra's graph algorithm and integrated it with STT and TTS
- Developed a knowledge hub that transforms Telegram group chats into searchable knowledge bases with AI-generated summaries and semantic Q&A
- Built a multi-tenant SaaS platform for creating and deploying AI chatbots across social media channels with WebADB integration and real-time conversation management

Afex Ai, Remote - Jun 2024 - Nov 2024 (6 months)

ML Engineer / Data Scientist - Self-employed

- Developed an audio classification model with five classes, leveraging data augmentation to address dataset limitations.
 - Established the foundational architecture for the functioning of an AI agent, ensuring scalability and efficiency
 - Designed and implemented scenarios with STT and TTS models for a real-time AI agent.
 - Developed the frontend for a startup project using the no-code tool Retool, enabling rapid deployment and a user-friendly design
-

EDUCATION & CERTIFICATIONS

Mohirdev.uz - Jan 2023 - Jun 2024

Data Science and AI (Jan 2023 - Aug 2023)

NLP Development (Apr 2024 - Jun 2024)

42.uz - Feb 2025 - Mar 2025

Express Backend (DevOPS Basics)

SKILLS

Python • FastAPI • Flask • PostgreSQL
Cloud • Git/Github • Tensorflow/Keras
Domain Management • Networking
Docker • Linux

Languages

Uzbek - Native
English - Professional working proficiency
Russian - Limited working proficiency
